

MEET THE HATCHERY RESIDENTS

Up to 8 teams are active at once in The Hatchery, utilizing the flexible space and storage to fit their individual needs. The collaborative atmosphere facilitates cross-collaboration between groups, each of which commits to a one-year residency. Email entrepreneurship@umkc.edu to be put in contact with a resident venture.

2016-2017 Resident Teams

ADDVENTURE

AddVenture, introduces GameAds - ads that are games, games that are ads. GameAds are short and simple flash games that companies can put on their websites as an advertising tool, designed to get our clients' marketing messages across to their site visitors.

BULLETYN

Bulletyn connects students to their campus 24/7 and digitalizes opportunities offered at school, presented in a format that students prefer.

ECLIPSE

A proprietary system and product that allows easy building of card towers, reimagining the creative construction toy group popularized by Lego, Lincoln Logs, and Kinex.

E - VALENT

E-Valent is in the virtual event planning business. When customers arrive at our website they will be given a virtual tour of each of our venues that are hosted our site. They will also have a host of performers to book for their event.

SOLAR INTEGRATED DEVICES

Solar Integrated Devices creates solar devices that will be placed in recreational areas and other public places such as events and various venues. We have designed a solar bench/locker system that will allow users to charge their phones while sitting on the bench.
